Returns Policy: We always aim to supply transfers of the highest quality in mint condition. We gladly accept returns for exchange on the strict understanding that the transfers are not damaged in any way, i.e. creased, torn or soiled with oily fingermarks and the like. We have found this stipulation necessary on account of the few we do have returned being in an unsaleable condition. This does not affect your statutory rights.

One last point, we are always interested in acquiring original transfers, labels or stickers for verification purposes. We reserve the right to amend the artwork of our catalogued items to more exacting original specification as such information becomes available.
